What is ONESHOP:

ONESHOP is Redding's first makerspace that provides the newest technology for people to learn, create and share. It's a place where creatives can come together and demonstrate vision, design through iteration, prototype, market their business, and free themselves from constraints of expensive software and equipment by having affordable memberships and services. It provides a place where the community can gather and discuss ideas, solve problems and teach each other. It offers solutions to designers, hobbyists, educators, students, businesses, professionals, and any individual that loves design and wants to build. ONESHOP is where you come to create something.
